

# Repairs and Upgrades Coming to Baycrest Health Sciences this Year

*Province Investing in Renewed Facilities to Deliver High-Quality Health Care*

July 11<sup>th</sup>, 2017

## NEWS

Ontario is continuing to strengthen and support hospitals in Toronto Central with repairs and upgrades to Baycrest Health Sciences this year, to provide patients with high-quality care in a safe and healthy environment.

Baycrest Health Sciences will receive a total of \$4,329,099 this year to revitalize its facilities.

Funding from the province allows hospitals to make critical improvements to their facilities, including upgrades or replacements to roofs, windows, heating and air conditioning systems, fire alarms and back-up generators.

The 2017 balanced Budget includes a new \$7-billion booster shot to health care, building on the commitment made in the 2016 Budget. This investment will improve access to care, expand mental health and addiction services, and enhance the experience and recovery of patients.

Ontario is increasing access to care, reducing wait times and improving the patient experience through its [Patients First Action Plan for Health Care](#) and OHIP+: Children and Youth Pharmacare – protecting health care today and into the future.

## QUOTES

“These repairs and upgrades are crucial to ensuring all patients get the help they need now and in the future. By upgrading our hospitals’ infrastructure, we are helping Ontarians get the best health care close to home.”

— Dr. Eric Hoskins, Minister of Health and Long-Term Care

“This substantial investment will enable Baycrest Centre for Geriatric Care to make critical improvements to their facilities and strengthen our joint ability to provide high quality care and support to the patients and their families look to providers across the Toronto Central LHIN for healthcare.

— Susan Fitzpatrick, CEO Toronto Central LHIN

“This important funding will allow Baycrest to ensure our infrastructure is renewed to provide added reliability, functionality and capacity to key facilities on campus, and will position Baycrest to meet the ever-changing care needs of our current and future clients.”

— Dr. William Reichman, President & CEO, Baycrest Health Sciences

“On behalf of Ontario hospitals, I'd like to thank the Ontario government for recognizing the need for this vital investment. Given the continued capacity pressure facing hospitals as a result of a growing and aging population, ongoing investment in equipment upgrades and building repairs is needed to extend the life of all hospital facilities to maintain access to frontline services.”

— Anthony Dale, President and CEO, Ontario Hospital Association

## QUICK FACTS

- The province is investing \$175 million in repairs and upgrades to hospitals this year through the Health Infrastructure Renewal Fund (HIRF).
- HIRF investments in other hospitals in the area include:

Hospital Corporation	2017-18 Formulaic HIRF Funding (\$125M)
Baycrest Centre for Geriatric Care	\$ 4,329,099
Providence Healthcare	\$ 43,606
West Park Healthcare Centre	\$ 436,817

- HIRF was established in 1999 to assist hospitals in renewing their facilities.
- As part of the 2017 Budget, Ontario is also spending an additional \$9 billion to support the construction of new hospital projects across the province. This brings Ontario's total planned investment in hospital infrastructure to more than \$20 billion over the next 10 years.
- The government's investment of more than \$190 billion over the 13-year period starting in 2014–15 is the largest infrastructure investment in the province's history. It is helping to build new child care spaces, schools, hospitals, public transit, highways and roads.
